

# The Fundamental Ideology of Gnostic Fascism

Primarily here we are concerned with a continuation of the Faustian/Promethean spirit of the Western Aeon which draws in power from the Hellenic one. This theory of history has been espoused by others and primarily if one needs a primer on many of the ideas they should consult *Vindex: Destiny of the West* by David Myatt published in 1984 by Liberty Bell Publications. Fascism is in itself the successor of the Roman Empire which was a successor to the Hellenic society which is a successor to the Vedic civilization. The high and noble culture of the ancients has become perverted by the Magian ethos of the west. An economic system based upon debt-usury, consumerism and materialism. Whomever has the most wealth is seen as “noble” and awe-inspiring etc. Whilst these individuals champion equality they would not give a single iota to those impoverished. And when they do such acts of charity it is done more for show and very peripheral and meaningless. And itself is based upon slave-morality and the virtues of the herd. Fascism is elitist, militaristic – it has a warrior-culture as espoused by such Aryan cultures as the Vikings. If there was ever a symbol more befitting the Western Imperium it is the Norse ship breaking through the waves on some foreign shore. It denies the myths of racial equality that it is indeed verifiable that the Aryan race, some of the Asiatic races (the Far-East) and Arabs built history. Bushido as espoused in the Sun & Steel is one example of a “honorary” Aryan publication by the Far-East. Fascism is opposed as a matter of principle to effeminacy, queer degeneracy, liberalism, liberal democracy and other perverted disgusting Magian forms as Nazareny. The preservation of racial blood in defiance proud and noble to that of being racially blood-poisoned by the lesser brown and black races.

Any race of people which espoused or do espouse a similar system of racial supremacism even if this means *Black Supremacism* such as with the Nation of Islam should be seen as allies. And they likewise detest and reject the Magian ideals of equality, Communism, socialism, and other perverted disgusting absolutely degenerate tenets. The more they believe in racial segregation, racial supremacy and preserving their own individual cultures and races the more I support such individuals. So when you ask me why I support such individuals one only need a cursory glance at the ADL’s website. Likewise why I wholeheartedly and fully support the Islamic war on Zionism. As Hitler himself did. So are you opposed to individuals Hitler would have been fully supportive of? I think not unless you are not a true blue dyed in the wool National-Socialist. There are severe differences of interest here with white nationalism and white supremacist ideologies yes. However, to state I do not have racial pride is a foolish thought to have. Bordering upon the stupid and moronic. Needing to be grass fed here like mere cattle. There is nothing wrong in essence with Zionism – it’s more accurately described as National-Socialism for Jews. However, it is at the expense of the Western Aeon. The dialectic of history suggesting that Aryans were sent by the Gods to colonize the Stars in a Galactic Imperium. Anything and everything which stands in the way of this should be totally destroyed fully without mercy, without sparring and without pity. For pity and mercy are nothing more than diseases which make sick the strong.

Fascism is a continuation of the ideology of Ancient Greece. The political culture of ancient Greece and particularly the martial warrior ethos of ancient Sparta. With it’s resulting emphasis on militarism and

racial purity. I emphasize wholeheartedly here that we should adhere strictly to Hellenic values and culture. There was a common Aryan race the same that conquered ancient India, the same that ruled the Roman Empire and the same which ruled Hellenic Greece. The individual differences of races should not tear up the greater racial community as Adolf Hitler himself believed.

I emphasize the need for a philosopher king in an ideal state as Plato did in *The Republic*. An ideal state would be ruled by an elite class of rulers and there would be a necessary rejection of “social equality” – a disgusting perverted Magian concept espoused by the Nazarene trash breed types that are en masse and sicken and weaken society. The laws of democracy are nothing but mob rule and its freedom is mere anarchy. The equality of the unequal and the undeserving. It enslaves the strong and by virtue of us being the strong it enslaves the Aryan race! We must emphasize that individuals adhere to Aryan law (not the laws of the nation-state today which are merely perverted and twisted forms of what the original ancient law or laws were). We must not become as some sort of police state here. The Third Reich was never a police state which is a mere lie and mythology formed by the Zionists, the Magian and the “victors” of the First Zionist-War (WWII). We must permit individuals the right to live not as they necessarily please but to live an Aryanist life. The natural state of the Aryan is war-like, feral, untamed and most certainly not a domesticated cattle type as most are nowadays disgracefully. An insult and perversion to everything our great ancestors built. It is truly beyond sickening! The ideal fascist or National-Socialist state would have state-run education that was able to produce warriors, rulers and there would be indeed a state-sponsored eugenics program in order to improve the Aryan stock. Spastics should be drowned at birth no doubt. However, we could do this humanely through selective breeding. Breeding the higher noble individuals with other high and noble individuals. Which is a natural case for any healthy civilization. Not breeding them with degenerate drug abusers, sexual perverts and other disgusting swine and rabble. The best example in modern times of such a philosopher king is Adolf Hitler himself. Who was better and bigger than that disgusting swine Jesus. A dead incompetent weak Jew nailed to the Cross. I spit as I even think of that name. I praise those who nailed *him* to the cross and drove the spear through his side. Adolf Hitler himself said that Christianity in Rome led to its destruction. You want to reject the authority of Adolf Hitler and yet claim to be a National-Socialist? Don’t make me laugh! Truly only the moronic grass feeding pretendu class of National-Socialists would see Christianity and National-Socialism as bred and born in the same fire. Only the truly incompetent fools would.

National-Socialism is primarily concerned with self-assertion not self-denial as in Nazareny (Christianity) towards those deemed inferior. Natural selection and the struggle for existence is just the eternal struggle of time. Indeed if something is too weak, too pitiful and too compassionate to survive on its own then it deserves extinction. All failure species on Earth have been likewise. Exterminating such inferiors is simply a Hollywood myth or daydream. As they’ll take themselves out in due time. Let nature run its course. That’s National-Socialism not the myth of some imaginary Holocaust. Those incapable of asserting their own individual will or more apt racial will deserve extinction. And primarily today we see the white race taking a note on this chapter. As it seems they are unconcerned and unmotivated by the genocide going on all around them. They indeed would prefer extinction. As it seems. Only a few truly see things how they are and refuse to go meekly in the night – like the Nazarene himself did. The right to life is granted to only those who can survive on their own. It is in this exhalation of life not denial that we find the Aryan virtues of conquest, colonialism, art, music, etc.

So what is then the fundamental ideology of Gnostic Fascism? Well Gnostic Fascism in essence can be considered esoterically speaking to Luciferianism. That the idea the Western Aeon is one of Faustian/Promethean values espousing a warrior-like culture of conquest. And is based firmly upon empiricism, rationality, and technology. Both Dionysian and Apollonian in Nietzschean terms. The end goal of Gnostic Fascism is the absolute downfall and destruction of the Old Order and it's replacement with a new Imperium that will be created by a figure known as Vindex within the next 200-300 years. Who was partially manifest in Adolf Hitler and was fully manifest in such myths as Kalki the avenger. Not a mere human but a GOD IN THE FLESH. Who will lead us into victory after victory and establish a totalitarian absolutist fascist dictatorship and create the Fourth Reich and lead to GALACTIC IMPERIUM! Whose main embodiment is the spaceship a combination of all these Western values and ethos into one.
