

## **Why Noctulius Waffen?**

Noctulius Waffen is a secretive and clandestine operation which objectively speaking has no members, no authority and is ultimately just the writings of one individual (myself – Azagthoth ay-Shaitan Ahriman-deva Rudra das also known affectionately as Dark Gnosis).

The issue here lies with the forms themselves previously used being too exoteric about what should remain esoteric. National-Socialism, culling, crime, terror, and violence – which are all integral parts of Satanism and as any genuine Satanic adept knows the path to Godhead in the Vamacharga Tantrik sense.

Noctulius Waffen's outershell is that of a far left troll/prank organization with numerous imbeciles in charge who are either psychotic, on drugs or both. It is a digestible watered down version or take on the true Tradition (which may or may not differ from the O9A both ideologically and officially) but is nevertheless a genuine O9A nexion to the Dark Gods.

Noctulius Waffen admits that there is a master race that of the Aryan race whose prime representative was sent by the Dark Gods themselves as Adolf Hitler. And who unfairly was defeated by the Yahoudi-Nazarene forces of Amerika and the USSR. And that whether or not there was a Holocaust is irrelevant.

The Islamic symbolism is merely to hint at the truth. That Mohammed stole from the Pre-Islamic most likely Persian or Sumerian tribes or tradition the Dark God Atazoth who is the Cosmic form of Satan and renamed him Allah. It admits that Islamic is an inherently evil and Satanic religion now watered down and ruined by Communism, Organized Jewry and other forces.

The kolokrat or Black Sun represents the esoteric essence of National-Socialism and fascism as espoused by Savitri Devi, Heinrich Himmler, the Theosophical Society, and Julius Evola. The skull and knives is merely a play or form of the Totenkampf of the glorious Waffen-SS.

Noctulius Waffen is a Chaos-Gnostic Vampiric Order of Satanic Islamic Aryan National-Socialists seeking via chaos, terror, violence and other machinations – as we are amoral and wish to sow the seeds of chaos – the downfall of the Old Order for the Dark Imperium/Galactic Imperium.

Our tendrils extend deep and long into the fleshy womb of Davinca and towards the Yggdrasil Atazoth's blood and Blood Pool. Ebbing and flowing Azoth from ay-Shaitan.
